Why two photographers

Coverage

Something often overlooked when selecting a wedding photographer is the number of hours that will be offered during the coverage of your wedding.

Typically you will want your wedding photographer to be with you to document all the moments of your wedding day. After all, that's what you are hiring them for. That being said, typical coverage requirements for your wedding day should be about 10 hours.*

Two wedding photographers

With so much happening on your day, we find it always important to have two photographers. This gives us the ability to not only capture two different moments at the same time but also to capture the super important moments from two angles.

For example, our first photographer photographing the bride sharing those last few intimate moments with her father just before entering the ceremony and the second photographer the expression and emotion of the groom waiting for and watching his bride walk down the aisle.

Thank you for capturing our special day. Our experience working with you was fantastic and the pictures you captured are outstanding and really captured the magic of the day. Sylvine Rigoulet | Jura

Thank you is simply not enough. You have captured moments that our family will treasure forever. We are looking forward to seeing you for our next family event.
